

PSL-UEC12-EW

Diaphragm Protected Pressure Switch

The PSL-UEC12-EW is a reliable and sensitive pressure switch. Its compact design and combination of set-point sensitivity offers cost-saving solutions for a variety of applications.

The PSL-UEC12-EW is ideally suited for liquid and gas chlorine piping. The 600 PSI overpressure and 1,000 PSI proof pressure will prevent damage while the adjustable alarm switch setting range is well suited for low pressure alarm usage.

Features

- United Electric 12 Series
- Adjustable Range (25—65 PSI)
- SPDT Switch Output
- 316 Stainless Steel Construction withstands the harshest environments
- • Hermetically Sealed Micro-switch • Vibration Resistant Belleville provides set point stability
- • UL, cUL, ATEX and IECEx approved
- • Dual Seal provides process sealing between electrical system and combustible process fluids
- 1,000 PSIG Proof Pressure Rating UEC12 Switch
- Type EW Seal with
- Tantalum Diaphragm
- Hastelloy Lower Housing
- Halocarbon filled
- 1/4" Male NPT Lower Process Connection
-

Ordering Information

Product No.	Description	Pressure
PSL-UEC12-EW	1/4" MPT, Lower mount	25-65 PSI (1.7-4.5 bar)
